

I am concerned that K-LOVE, which is heard in many places via an FM translator, may be displaced in the Denver area by LPFM stations. K-LOVE is a unique station with quality programming for all ages that encourages me, many of my friends and many families around the Denver area. While many stations are seeing how far they can push swearing, sexual innuendo and music promoting violence, K-LOVE is offering hope, peace and encouragement through music, the DJs, short messages and public announcements about family appropriate local events. Please consider carefully the impacts of your decision in this matter.
